WATER-TIGHT PERFORMANCE

- Breathable dry fix solution
- Durable and long lasting water-tightness

SUPERB AESTHETICS

- Neat and tidy finish with choice of colours for better matching

EASE OF INSTALLATION

- Compactroll® Plus is developed along with Crep-Tech™ technology to improved it stretchability roof tiles profile or design
- Up to 50% stretchable of material for easy and fast installation

BREATHABLE MEMBRANE

- Water repellent sleeve with high ventilation feature

COMPACTROLL® PLUS

PRODUCT & TECHNICAL DATA

Material	PAN Fleece ventilating UV stabilized with coated aluminium stretch pleating strips		
Ventilation Cross-Section	> 1,100cm ² / m		
Surface Colours	Anthracite, Brown & Red		
Length per Roll	10 meters		
Width per Roll	295mm	and	340mm
Adhesive Type	Butyl (Applicable for tropical weather)		
Weight per Roll	2.6kg / roll	and	2.7kg / roll
Stretchability	50% (Aluminium side strips)		
Temperature Range	-20°C to 80°C		
Application Temperature	+5°C to 40°C		
Storage Recommendation	Below 30°C , max 2 years		
Recommendation	To be installed with Monier Ridge Tree galvanized steel support with timber runner in accordance with Monier's recommended instruction		

In view of innovation, the specifications are subject to change without any prior notice and in the event of such changes, Monier shall ensure that the new specifications are equivalent if not better.

BMI LEAK-PROOF SOLUTION

Monier Leak-Proof Solution combines the use of Monier's innovation Roof System Components and Monier Dry Fix methods to give homeowners peace of mind against roof leakages while maintaining a durable and aesthetically good-looking roof.

RIDGE & HIP

- Ventilated Dry Fix method for ridge and hip
- High ventilation value
- Long-lasting watertight solution

ABUTMENT

- Waterproofing dry fix solution for abutments
- High aesthetics value
- Long-lasting and durable

V-PIPE SET

- Dry Fix method for sanitary pipe outlet
- High aesthetics value
- Enhance the overall roof water-tightness

SOLAR FITTING KIT

- Required with Solar Water Heating System
- Solar fitting kit for a watertight hot and cold water pipe inlets and outlets
- Clean, neat and long-lasting

RIDGE TREE

PRODUCT & TECHNICAL DATA

Material	Galvanised Steel
Application	1 piece per rafter at the ridge or hip
Packaging	10 pieces per bag
Recommended Specifications	Monier Ridge Tree (galvanised steel support) with timber runner (by others) to be installed with Monier CompactRoll® Plus in accordance with Monier's recommended instruction

In view of innovation, the specifications are subject to change without any prior notice and in the event of such changes, Monier shall ensure that the new specifications are equivalent if not better.

MONIER COMPACTROLL® PLUS AND RIDGE TREE APPLICATION

Installed with Monier Ridge Tree with timber runner

Ridge Tile
CompactRoll® Plus
Ridge Runner
Ridge Tree
Roof Tile
Batten

Sketch of laying, in this case with a profiled roof tile at the ridge

EASY INSTALLATION WITH BMI DRY AND VENTILATING RIDGE AND HIP SOLUTIONS

Secure the ridge tree to the rafter / counter batten

Secure the ridge runner onto the ridge tree

White marking line makes it easier to align the CompactRoll® Plus concentrically along the ridge and hip

CompactRoll® Plus is an important element of our Energy Efficient Roofing Solutions that utilise nature's clean and unlimited resources to minimise energy consumption and provide significant cost savings while **lowering the impact on the environment.**

MONIER COOLROOF®

Monier CoolRoof® creates a natural airflow and heat barrier that limits heat transfers through the roof to provide a cool and comfortable home. It is a sustainable system to save energy, reduce electricity costs and protect the environment.

Our R&D teams in Malaysia and Europe have successfully developed a state-of-the-art roof simulation software, Roof Physics, which validates that Monier CoolRoof® reduces the temperature of your home up to 10°C compared to conventional roofs in Malaysia.

Cooler home and bigger savings!

- Up to 10°C cooler inside
- Reduce up to 60% of air conditioning usage*
- Reduce up to 30% of electricity bills*
- Less than 2 years payback period

**Data validated by BMI Technical Centre in Europe for tropical weather, in collaboration with Oak Ridge National Laboratory and Lawrence Berkeley National Laboratory in U.S.A.*
