- The colours shown here are reproduced as close to the original as printing technology allows. For best accuracy on colour selection, refer to actual tile.
- Other colours not featured on this page are available upon request.

PRODUCT & TECHNICAL DATA

Number of Tiles per m ²	12.5 - 13.5
Dimension	262mm (W) x 432mm (L)
Batten Spacing*	330mm - 357mm
Minimum Headlap	73mm - 100mm
Coverage	12.5pcs/m ² (base on 73mm headlap)
Weight	~3.3kg/pc
Minimum Pitch	20°

* The maximum rafter inclined length (total water run-off distance) is up to 6 meters at the minimum roof pitch stated. For rafter lengths exceeding this limit, please consult Monier for technical advice.

* The overall truss layout shall be set out equally and maintained consistently to ensure compliance with the recommended batten spacing specified in the installation requirements.

* For multi-tier roof configurations, a properly designed rainwater gutter system shall be provided between the upper and lower roof tiers to ensure effective

drainage, provide controlled runoff, minimize splash, and protect the lower roof from potential leakage or damage caused by uncontrolled flow during heavy rainfall. **Rainwater from downpipes shall not be discharged onto the lower tiled roof** to avoid excessive water concentration. We shall not be held liable for any water-related issues arising from the absence of a gutter system in a multi-tier roof design.

In view of innovation, the specifications are subject to change without any prior notice and in the event of such changes, Monier shall ensure that the new specifications are equivalent if not better.
